

Joliet Radio Control Club Meeting

Dear Joliet Radio Control Club Member,
Model Builder, Pilot, and Friend:

**Sunday, November 1st, 2009, at 2 PM,
at STEFFES' - 2705 S. Chicago Street, Joliet.**

I can't believe that it is October already! Where did this flying season go? I do hope there will be at least a few more opportunities to get out to fly.

There is not much to report... BUT, if you missed the Annual Picnic last August you missed a real nice day of flying and being with family and friends. We had a very good turn out, and Yes, I do remember the food was really good too, we even ran out. Thanks to everyone that helped out that day with set-up, cooking, selling raffle tickets, helping with the raffle, and clean-up. There was not even so much as a gum wrapper found on the ground the next morning. I am already looking forward to next summer's club picnic and again hoping for good weather.

Thanks to the Grass Cutting Crew, the Three D's, (Dave, Dennis, and, Dick), who kept the field well manicured. As many of you remember we announced early when flying season commenced that we planned to cut the field every Monday and Friday from 12 Noon to 2:30 pm. During the spring and into the early summer we did need to cut twice per week but when things dried up and the grass growth slowed, it was decided to not cut on some Fridays. This usually resulted in the grass not being cut on Friday's and it did stretch our fuel and mower expenses. Why cut grass when it does not need it? I don't cut mine and I would bet you don't cut yours if it doesn't need it.

Please extend your support and appreciation to the local hobby shops that provided generous donations of raffle items to our club picnic raffle. **Ken's R/C Hobbies in Morris, Leisure Hour's Hobbies and Walt's Hobby Shop of Joliet all provided items to our club raffle.** To augment this activity a couple of members 'passed forward' a couple raffle items not needed and the Club purchased a wide variety of items that were also added to the raffle.

We do encourage participation in the club SHOW 'n TELL at meetings... Feel free to bring any large or small model, tool, technique, project, or anything of interest to share with the group during "Show 'n Tell at our meetings. We'd like to see what you are building or working on. Keep bringing 'em in...,

This is **your** club! Please come, share, and **participate...**
